Quatrix for Outlook
User Guide

This guide contains the installation and user guides for Quatrix® plug-in for Outlook.

Quatrix for Outlook provides users the ability to share important data via email in an easy, convenient and secure way. Attachments are automatically uploaded to your Quatrix account and the link to the attachment is sent to the recipient in the body of the email.

System Requirements

Quatrix for Outlook supports Microsoft Outlook 2013 and 2016.

Prerequisites

Each user can run only one installation of Quatrix for Outlook.

Installation Guide

To install the latest version:

1. Download Quatrix for Outlook from our website or your Quatrix account.
2. Completely unzip or extract the downloaded file.
3. Open the extracted folder and double-click the Setup.exe file to begin installation and setup.
4. The Setup Wizard dialog box opens.
5. Click Next and read the License Agreement.
6. Accept our License Agreement and click Next.
7. Select the location where the plug-in will be installed on your PC.
8. Click Next on the Confirm installation dialog box which begins the installation of Quatrix Plug-in.
9. Click Close when the plug-in is installed.
10. To use the updated version of Quatrix for Outlook you should reopen Microsoft Outlook.

User Guide

When the plug-in is installed, Quatrix® Account Details option appears in the Outlook. To share files or folders using Quatrix plug-in you should be a registered Quatrix user.

Note: There may be occasions when Outlook 2013 or 2016 fails to enable the Quatrix plug-in. You should choose “Always Enable this add-on” for the Quatrix for Outlook in your Outlook settings to prevent the plug-in from being disabled.

After clicking on the Account Details the following options appear:

- Log in - use this option to log in to your Quatrix account.
- Log out - use this option to log out of your Quatrix account.
- Clear login credentials - this option is used to delete login credentials which are displayed on the login form.
- Feedback - help us improve our service by sending us your suggestions and ideas.
- About ... - provides a brief description of Quatrix Outlook Plug-in.

3. Select files or folders for upload. Uploading files are shown in the Quatrix® Uploader window which is displayed in the bottom right corner. You can track the status of the upload on the status bar.

4. You can choose the share privacy level and additional options by clicking the Settings icon on the Quatrix Uploader window.

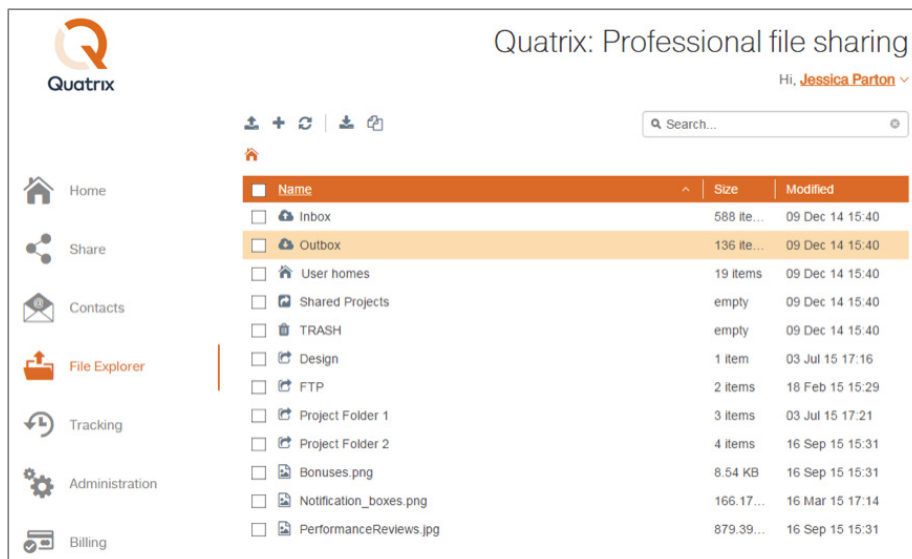

Share Privacy Options:

- > Public - Anyone can download shared files
- > Tracked - Any registered Quatrix users can download. Fully tracked.
- > Restricted - Only the registered email recipient can download.

You can specify additional options for your share:

- > Expiry date - share links never expire but to set an expiry date clear the check box, click on the calendar icon and choose an expiry date and time. Download links are permanently inactive when they expire.
- > Release date - use the same method to set a date and time to release your files. You can upload your files and send out the links but download links are inactive until the chosen time.
- > Notify me on download - select this check box to receive a notification email when the files are downloaded.
- > Recipient(s) can return files - if selected, the notification email will contain a link to a page where your contacts or users can send files back to you.
- > Destination Folder - shows the path to the uploaded files.

5. Send files. Your shared files/folders are displayed in the Sent items folder of Outlook and in the Outbox folder of your Quatrix account.
