

Quatrix

Administration Guide

This guide covers features and functions that are available to the account owner and administrator. You will learn how to manage your account and users, control sharing, adjust security options site-wide, track your account activity and automate some of your activities.

User Guide

It contains everything you need to know about secure file sharing. This guide will walk you through Quatrix core features: easy-to-use file sharing with advanced security, secure data acquisition and storage, sharing and activity tracking.

Quatrix API

Our public API allows you to easily integrate our secure file sharing features to your application.

Release Notes

Check out the newest features, improvements and fixes we have just released.
