

getUserKeys

Returns public PGP keys of specified users or contacts.

Parameters

Name	Type	Description
user_ids required	function	array with user or contact id's
cb optional	function	callback function

Example

```
this.getUserKeys = function(uuid, cb){  
  return _request({  
    method: 'GET',  
    url: '/user/key/' + uuid,  
    callback: cb,  
    silent: true  
  });  
};
```
