

userMetadata

Returns metadata for specified user

Parameters

Name	Type	Description
uuid required	string	specified user id
cb optional	function	callback function

Example Result

```
this.userMetadata = function(uuid, cb) {  
  return _request({  
    method: 'GET',  
    url: '/user/metadata/' + uuid,  
    callback: cb  
  });  
};
```
