

contactToUser

Upgrade contact to user.

Parameters

Name	Type	Description
user_uuid required	string	user uuid
data optional	object	information about specified contact
cb optional	function	callback function

Example Result

```
this.contactToUser = function(user_uuid, data, cb) {  
  return _request({  
    method  : 'POST',  
    url: '/contact/upgrade/' + user_uuid,  
    data: data,  
    callback: cb  
  });  
};
```
